FAX-878 Easy-to-use Fax Machine with Advanced Features for the Home and Small Office

Introducing Brother's newest fax machine, the FAX-878 is easy-to-use, compact in size and packed with great features ideal for your home and business needs. More than just a facsimile, the FAX-878 can make copies of your faxes or other documents and comes with an integrated handset that can be used for making calls.

Brother delivers an easy-to-use, attractive and space saving solution to meet all your facsimile needs.

Features

Easy-to-use

With 12 one-touch dials, you can dial more of your important telephone numbers with just one press of a button.

Fast Fax, More Memory

Ensures fast transmission with a G3 9.6K bps modem and save up to 20 pages of outgoing fax transmission with more memory capacity.

Simple Advanced Dialing

Pre-set up to 100 speed dial buttons and even broadcast to 112 locations. Send your faxes to 4 different groups of numbers with the group dial feature for greater convenience.

No More Manual Page-by-Page Faxing

No more manual feeding of pages to fax with the Automatic Document Feeder (ADF) that can fax up to 10 pages at once.

Make Copies of Documents

Double up as a copier, you can make crisp, clear copies using the sheet-fed mechanism, as well as scale your copies from 50% to 150%.

Integrated Handset

Why spend money on an additional phone? With the integrated handset, your fax machine can double up as a telephone as well.

Support Services

Brother's comprehensive post-sales support services will give you peace of mind with your purchase decisions. With the Fax-878, you can be sure that there is a Brother at your side.

* Based on ITU-T Test Chart #1 at standard resolution in ECM mode

"Celebrating 100 years in operation, Brother International is a leading global manufacturer of laser printers, Multi Function Centres®, fax machines, P-touch electronic labellers, typewriters and sewing machines. A specialist in its product lines, Brother combines customer satisfaction and comprehensive measures for environmental conservation, to manufacture innovative, reliable and practical products to enhance the consumer's lifestyle. Brother International Australia is a major sponsor of the Planet Ark program 'Cartridges 4 Planet Ark' in addition to adopting a printing system that reduces consumable wastage. The printing system ensures users only need to replace the empty cartridge rather than the entire drum or inkjet print head. Brother International Australia and each of their state branches have also been awarded the strict ISO 14001:2004 standard for Environmental Management Systems; and their products are Energy Star approved, a standard governing product safety and total environmental management strategy. All Brother Products are designed to help you conduct business in the most environmentally sustainable manner; please visit www.brother.com.au"

Brother strongly recommends the use of genuine Brother consumable products only. Benefits include better quality prints, greater yields per consumable, protection of your machine from damages and achievement of optimum performance. As a precaution, please note that your machine warranty may not cover any damages arising from the use of non-genuine consumables.
